

## Tidy™ Cable Management System

### Main Features

#### Easy Fixing

The fixing bracket is first attached to the underside of the desk using two screws so that the Tidy™ cable management system can be thread through and secured using velcro strips as required. The base can be attached in the same way.

#### Adjustment

Tidy™ is fully adjustable using the velcro strips at the top and bottom of the cable management system.

#### Capacity

The Tidy™ cable management system has been designed with greater capacity than previous products and includes internal segregation to comply with the latest standard, BS6396:2008.
